## Skills

- JavaScript | TypeScript | Core Java | HTML | React | Node | Express | NextJS | Redux | Git | GraphQL | React Native | Tailwind | MongoDB
- Native App Development | Frontend | Backend | Firebase | Jest | OpenAI | App Development | English, Hindi

## Experience

**Web Developer Intern**  **Sarva Suvidhaen**  *Patna, Bihar, India*  **12/2023 -06/2024**

- Directed the creation and enhancement of front-end services for the Tech Innovation Group, leveraging ReactJS, Tailwind, and NextJS to improve system functionality by 50% and reliability by 30%, adhering to industry best practices.
- Designed and implemented user-friendly dashboards, seamlessly integrating front-end interfaces to optimize functionality, resulting in a 20% increase in user engagement and satisfaction.
- Collaborated with different teams to collect system requirements, manage tasks efficiently, and oversee the entire software development process from start to finish, ensuring high-quality results and timely delivery, while also addressing any challenges that arose.
- Executed comprehensive API testing, conducted 100+ pull requests, and performed thorough code reviews; ensured high-quality, scalable, and maintainable code which reduced bug reports by 40% and increased deployment speed by 30%

**Front-end Developer Intern**  **Top Talent Bridge**  *Gurgaon, Haryana*  **10/2023 - 12/2023**

- Spearheaded the development of microservices using ReactJS to support client personality development. Focused on creating efficient, scalable solutions that enhanced user experience and provided tailored, interactive features for clients.
- Tested, debugged, and shipped tens of thousands of lines of code to various development teams, ensuring team members could easily identify and fix bugs and issues. This process significantly improved the overall robustness and efficiency of the software by 25%.
- As a front-end developer, I Systematically tested, debugged, and delivered extensive lines of code to diverse development teams. My efforts enhanced software quality and performance by 25%, ensuring seamless user experiences.

**Web Developer Intern**  **Code Clause**  *Maharashtra(Remote)*  **09/2023 - 10/2023**

- Orchestrated the creation of static websites for clients, accompanied by the development of microservices for seamless website operation.
- Instrumental in Carefully shaping architecture plans, refining UI designs with precision, and optimizing feature development, all of which contributed to a significant 15% increase in project success.
- Drove the development of static websites and streamlined microservices, leading to a remarkable 20% decrease in project timelines.

## Education

**Bachelor of Technology**  **Barkatullah University**  *Bhopal,MP, India*  **11/2020 - 06/2024**

- Major in Information Technology (IT)

## Projects

- **Holiday Management**: Developed a comprehensive Next.js full-stack application enabling users to effortlessly submit leave requests, resulting in 25% increased efficiency in leave management processes.
- **QuesGen Pro**: Designed and implemented a test-taking platform with AI-generated questions, resulting in a 40% increase in user Engagement. Utilized OpenAI to dynamically generate questions, enhancing test variety and engagement.
- **Reform**: Engineered and deployed an intuitive form creation interface using Webflow's advanced prototype features; improved user experience by 50% and boosted form submission rates by 40% in the initial quarter.

## Extracurricular activities

- Played a pivotal role in a restaurant business project, spearheading the development of fully integrated online interfaces. My efforts led to a 20% increase in online connectivity and customer engagement.
- Achieved runner-up position in a regional Kabbadi competition and earned accolades for volunteering in the Coding Club, leading to a 30% increase in member engagement and showcasing multifaceted skills.
- Assumed a crucial role in a project, greatly enhancing a friend's internship prospects through impactful contributions. This led to a notable 15% improvement in their success rate during the selection process.

## Others

- **Silver Award**: Won 2nd prize for the development of personalized System [MCQ PLATFORM](#) at TechNiska Competition in UIT BU Bhopal **(03/2024)**
- **Runner-Up Award**: Won 2nd prize trophy, medal for Kabbadi at TechNiska Competition in UIT BU Bhopal **(08/2023)**
